

Antonio Ruiz

UI Engineer (Design Systems & Frontend Architecture)

📍 Mexico City, Mexico ✉️ toti.webdev@gmail.com ☎️ 55 2541 6448 🌐 www.devtoti.com 💼 devtoti 🔄 devtoti

About

UI Engineer with 3+ years of experience building scalable design systems and frontend architecture with React and TypeScript. I specialize in translating complex requirements into reusable UI systems that improve development velocity, consistency, and performance. Experienced in design tokens, component libraries, and accessible (WCAG 2.1) interfaces, I collaborate closely with design and product teams to deliver efficient, high-quality user interfaces.

Experience

[Get In The Loop](#), UI Engineer (Contract)

Kelowna, Canada

2024 – 2025

1 year

- Refactored and standardized Admin and Business dashboards by introducing reusable UI patterns and components, improving consistency and reducing design fragmentation
- Collaborated with designers to define and scale design system patterns, improving handoff efficiency and reducing design iteration time
- Built and maintained a scalable template system for 100+ dynamic social media assets, enabling consistent output and reducing manual design effort

[Draftbit](#), Frontend Designer (Contract)

Chicago, USA

2024 – 2025

1 year

- Structured and scaled UI patterns across 80+ screens, contributing to a consistent design system used across the platform
- Developed a multi-theme UI system with 15+ brand styles, enabling reusable theming and faster UI generation for end users
- Designed and validated a product feature that improved lead conversion by 18%, aligning UX decisions with business metrics

[Totaldevs](#), Frontend & UI Developer (Contract)

Mexico City, Mexico

2021 – 2023

2 years

- Conducted A/B testing and UX analysis to optimize conversion funnels and improve key metrics (CVR, CTR)
- Developed responsive, conversion-focused interfaces across multiple CMS platforms, ensuring cross-browser consistency and site performance

Projects

[ArchUI – Scalable Design System & Component Library](#)

December 2025

- Architected and implemented a scalable design system using React and TypeScript, supporting reusable components and flexible theming
- Built and documented component library using Storybook and Chromatic to enable reuse and visual consistency across implementations
- Defined and structured 200+ design tokens to standardize spacing, typography, and theming across the system
- Published and versioned the system on npm, enabling external consumption and iterative development

[mobileKangaroo](#) – Website Revamp for Apple-Authorized Reseller

August 2024

- Led the redesign and frontend implementation of a multi-location website (30+ stores), improving SEO structure, page performance, and navigation clarity

[365JunkHaul](#) Page, Order Checkout & Admin Dashboard

July 2024

- Designed and implemented a full-stack web application with Next.js and Supabase, including role-based dashboards and optimized checkout flows
- Developed role-based UI systems (admin, workers, customers) with shared components and consistent interaction patterns

Skills

Frontend: Next.js, SvelteKit, React, TypeScript, CSS3, SCSS, Tailwind, Chakra UI, Shadcn, MUI, Radix UI, Node.js, Astro, REST APIs

Design: Figma, Storybook, Chromatic, Adobe Suite, Affinity, Wireframing, Prototyping, Design Systems, Design Tokens, Variables

Other: Responsive Design, UX Writing, Cross-Browser Compatibility, WCAG 2.1, A11y, Motion (GSAP), CAD & 3D Visualization

Languages: Spanish (Native), English (C1), French (Intermediate)

Education

BA **Universidad Nacional Autónoma de México**, Architecture

Mexico City, Mexico

- GPA 3.98/4.00
- Awards: Summa cum laude
